

NON FERROUS ALLOYS

■ Nickel Aluminium Bronze

■ Copper Nickel Alloys

□ Possible to cast Bronze or Brass (on a case-by-case basis)

Dedicated alloys for:

- Low temperatures
- High grinding
- Wear resistance
- High corrosion resistance
- Non-magnetic applications
- Very high mechanical properties
- Stamping equipment
- Forging equipment

SAND CASTING

■ Up to 50 tons

▲ Experts in design, parts conception, foundry simulation, ...

◀ 10 induction furnaces

Pump casing - 5000kg ▶

MACHINING & WELDING ASSEMBLY

■ INOXYDA Foundry supplies as-cast, rough or finish machined parts.

Gate valve 60 inches ▶

Since its origin in 1924, **INOXYDA** has been continually growing more particularly in export activities. At INOXYDA, we work closely with our customers using our expertise, know-how and **Aluminum Bronze** application experience in order to offer tailor-made and economical solutions. The excellent mechanical properties provided by the use of **Nickel Aluminum Bronze** — especially in terms of corrosion and sea water resistance — allows INOXYDA to offer various types of products:
